## ELECTRONIC PIPETTES

# The Picus Pipette family

REDUCE YOUR RSI RISK

Enjoy your work with the award winning Picus! Its highly sophisticated and completely ergonomic design will reduce your risk of repetitive strain injury (RSI). Fully electronic operation ensures the maximum accuracy and repeatability of your results.

- › Uniquely lightweight and streamlined design for effortless pipetting experience
- › Conveniently located soft-touch operating button and electronic tip ejection help minimize muscle strain
- › The comfortable design of the handle and finger hook enable Picus to rest lightly in your hand, with minimum effort
- › Electronic piston control and brake guarantee accurate and precise pipetting results, independent of the user

## MECHANICAL PIPETTES

# The Tacta Pipette family

*THE ULTIMATE IN ERGONOMICS*

Tacta has been designed to feel great in your hands. Thanks to its ergonomic handle and finger hook, there is no need to grip the pipette tightly. Easy, safe and comfortable to use, Tacta meets the most demanding pipetting requirements, delivering consistently accurate results time after time.

- › Comfortable to hold due to the ergonomically designed handle – Weight only: 70-100g single-channel models
- › Low pipetting and tip ejection forces that reduce the risk of RSI and Work Related Upper Limb Disorder
- › The unique Sartorius Optilock system provides flexibility for volume adjustment and locking
- › Controlled and smooth tip ejection with the new Sartorius Optiject technology (levered tip ejection system)

## MECHANICAL PIPETTES

# The Mline Pipette family

WHERE PRECISION MEETS ACCURACY

Sartorius' mechanical pipette family - the Mline - offers excellent ergonomics, performance and safety in manual pipetting. It is particularly designed to maintain high accuracy and precision in repetitive and long-lasting pipetting. The Mline is an advanced and ergonomic choice for quality-conscious users who perform long and repetitive manual pipetting and is recommended by health and safety officers all over the world.

- › Excellent ergonomics to protect from injuries with the exceptionally light pipetting and tip ejection forces
- › High accuracy and precision, also in repetitive, long-lasting pipetting
- › Minimised risk of contamination with Safe-Cone Filters and full autoclavability
- › Increased safety with volume lock preventing accidental volume changes while pipetting

## MECHANICAL PIPETTES

# The Proline Plus Pipette family

### THE PREMIUM STUDENT PIPETTE

Proline Plus mechanical pipette family is designed to offer comfort and quality for your everyday manual pipetting. It combines durable construction with ease and lightness of use and is therefore a perfect choice for liquid-handling professionals and students alike. Proline Plus has low pipetting forces, a comfortable handle and a robust feel for heavier use.

- › The widest range of pipettes for various users and applications
- › Ergonomic design with light pipetting forces, comfortable handle and finger support for reduced risk of strain injuries
- › Minimised risk of contamination with Safe-Cone Filters and full autoclavability
- › Highly durable with strengthened structure also for heavier use

## MECHANICAL PIPETTES

# The Proline Pipette family

IDEAL FOR TEACHING LABS

The fact that Proline, Sartorius' first mechanical pipette, is still in use in many laboratories by over 200,000 users, testifies to its timeless, practical design and reliability. Being the most affordable pipette in Sartorius' range of mechanical pipettes, it is ideal for universities and colleges, or any laboratory seeking a cost-efficient liquid handling tool.

- › Wide range of adjustable pipette volumes  
- from 2.5ul to 5 ml
- › Easy volume setting with click stop mechanism
- › Safe-Cone Filters available for models > 10ul
- › Relatively lightweight, highly accurate and precise

### Pipette Service & Calibration

Pathtech provides calibration, maintenance and repair services to extend the lifetime and ensure the continuous accuracy and precision of your pipettes via our NATA Accredited Service Laboratory.

### Why is Calibration and Maintenance Needed?

All pipette manufacturers recommend that regular maintenance and calibration is applied to maintain reliable pipetting results and to maximize the lifetime of the pipette. Pipette calibration is a fundamental part of Good Laboratory Practice (GLP) and quality systems and must be considered a vital part of any laboratory regime where precise volumes of fluid need transferring or diluting. Pipette performance is measured as accuracy and precision or how close the dispensed volumes are to the target and how close the results are to each other.

Contact our Pipette Service Team today on 1800 069 161 or email [info@pathtech.com.au](mailto:info@pathtech.com.au)

## MAXI VOLUME LIQUID HANDLING

# Midi Plus Pipette Controller

Midi Plus is a lightweight cordless pipetting controller, which allows aspiration from bottles and tubes without the arm and hand elevations required with serological or volumetric pipettes. It fits all commonly used glass or plastic pipettes but can also be used with Sartorius 5 ml and 10 ml disposable tips.

- ▶ Precise fingertip control of variable speed ranges
- ▶ Fits all commonly used 1 - 100 ml glass or plastic pipettes
- ▶ Hydrophobic autoclavable filter prevents from over aspiration
- ▶ Convenient fold-out bench stand supports the unit and pipette when not in use

	<b>Midi Plus</b> (inc. AC Adaptor)	<b>Part #</b>	<b>Original Price</b>	<b>SALE PRICE</b>

# The Prospenser and Prospenser Plus

The Prospenser and Prospenser Plus are high quality bottle-top dispensers with excellent chemical resistance. They are safe, convenient, and customizable, making them perfect for a wide range of dispensing needs.

- ▶ Extremely high chemical and thermal resistance due to ceramic piston, glass cylinder, and highly resistant fluoroplastic parts
  - ▶ The incremental volume setup ensures accurate and repeatable results
  - ▶ Fully autoclavable
  - ▶ Wide range of adapters included to fit most common bottle sizes
- The Prospenser Plus also includes 3 advanced features:**
- ▶ Media Recirculation System, Smart 360° Rotating Dispensing Head and Universal Connector for drying tubes and filters.
