

# ANZFSS 2018

## 24th International Symposium

Pathtech would like to thank our forensic customers who visited our stand at the recent ANZFSS Symposium, held in Perth from the 9th to 13th of September.

It was an honour to be a part of this Symposium and to be able to show our appreciation of your support over the years. This year's gala dinner was spectacular with an impressive "Game of Thrones" theme. Congratulations to all the winners on the night.

This year, Pathtech decided to highlight our latest portable forensic technology, so we incorporated this theme into our stand by presenting a crime scene backdrop (complete with bloody footprints!). It took many months of planning and we were delighted with the outcome. We took the opportunity to launch our new range of equipment: the Pixplorer, Light Cube, Trace Drug Surface Testing and Zygem. We also included the Crime Lite 82S, TraceX and SceneView.

We continued our popular quest to search for the fastest puzzle solver, this time with a new and improved puzzle. Our participants proudly took up the challenge with the goal to obtain the prestigious golden trophy. The lead changed several times as the anticipation grew. However, on the last day, the last participant - took out the prize solving the puzzle in an impressive 1 min and 21 sec.

We would like to congratulate, Victoria Police's own "Sarah Weller" as the winner for the second time! She cleared the field by a massive 40 seconds and beat her 2016 performance by 1 minute. Now she needs to make some room for her second trophy. Will she be back to defend her title at the next ANZFSS?

Please Note: The ANZFSS puzzle has a hidden message once it is assembled. Email [kj.wong@pathtech.com.au](mailto:kj.wong@pathtech.com.au) once you decipher it.

We hope you all enjoyed this year's ANZFSS 24th International Symposium as much as we did.

See you all in Sydney in two years' time.
